

Trump holds a rally at Madison Square Garden

(0:23 - 0:43)

Thank you everybody, thank you. Thank you very much everybody. Thank you very much to a very popular former first lady, hopefully first lady again.

(0:48 - 1:15)

And I just want to say a very big hello to a special place, New York, and to an incredible arena, Madison Square Garden, incredible. And then we have all of the people that could fill it up 10 times. You take a look at outside what's going on all the way down to the river, the beautiful, beautiful Hudson River.

(1:15 - 1:27)

They're outside watching this now at levels that nobody's ever seen before. They've never had it. And I want to thank Jim Dolan, he's been incredible, he's been just incredible.

(1:27 - 1:53)

The job they've done, the job they've done, thank you. But I'm thrilled to be back in the city I love and thousands of proud, hardworking American patriots, you're with me, we're all together, we've always been together. And I'd like to begin by asking a very simple question.

(1:53 - 2:17)

Are you better off now than you were four years ago? I'm here today with a message of hope for all Americans with your vote in this election. I will end inflation. I will stop the invasion of criminals coming into our country.

(2:18 - 3:17)

And I will bring back the American dream. We need the American dream to come back home. Our country will be bigger, better, bolder, richer, safer and stronger than ever before.

This election is a choice between whether we will have four more years of gross incompetence and failure, or whether we will begin the four greatest years in the history of our country. We will achieve success that no one can imagine. We will have the strongest economy, the most secure borders, the safest cities, the most powerful military, the best trade deals, and we will dominate the frontiers of science, medicine, business, technology and space.

(3:17 - 3:44)

And I'm asking you to be excited about the future of our country again. I'm asking you to dream big again. We're going to dream big again.

We haven't been dreaming big at all. This will be America's new golden age. It's going to happen quickly, too, very quickly.

(3:44 - 4:19)

And every problem facing us can be solved. But now the fate of our nation is in your hands. Next Tuesday, you have to stand up and you have to tell Kamala Harris that you've done a terrible job, that crooked Joe Biden has done a terrible job.

You've destroyed our country. We're not going to take it anymore. Kamala, you're fired.

Get out. Get out. You're fired.

(4:27 - 4:50)

Early voting is underway in every swing state, and we are setting all-time records. They're voting. I tell you what, I don't want to talk about it, but we have to keep it going.

We've got to get out and vote. We just have to get out. And who would have thought this was going to happen? We're leading in every swing state.

(4:59 - 5:46)

But it doesn't mean a thing. It only means, how are we doing at the end? So look, we have nine days from now, and we're going to defeat Kamala Harris, and we're going to win back the beautiful White House, and we're going to make America great again. And it's going to happen fast.

Thank you. In less than four years, Kamala Harris has shattered our middle class. She cast the deciding votes that launched the worst inflation in the history of our country.

(5:46 - 6:23)

She cost the typical American family over \$3,000 in a short period, but over \$30,000 over the last three years. She killed 50,000 manufacturing jobs this year alone. Now Kamala wants to raise the typical family taxes by nearly \$3,000 a year, and impose a 33% tax hike on all domestic production.

(6:24 - 7:29)

If Kamala Harris gets four more years, our economy can never recover. If I win, we will quickly build the greatest economy in the history of the world, which is what we had in

our last term. We will rapidly defeat inflation, and we will very simply make America affordable again.

We're going to make it affordable. I will massively cut taxes for workers and small businesses, and we will have no tax on tips. No tax on overtime, and no tax on social security benefits for our seniors.

(7:34 - 7:57)

I'm announcing a new policy today that I will support a tax credit for family caregivers who take care of a parent or a loved one. It's about time that they were recognized, right? They add so much to our country and are never spoken of ever, ever, ever, but they're going to be spoken of now. Thank you all very much.

(7:58 - 9:24)

I'll also make interest on car loans fully tax deductible, but only for cars made in America. They have to be made in America, and we will achieve energy independence, and we will do something we wanted so badly. We're going to do something.

You know what we're going to do? Front Row Joes. You know, I got Front Row Joes here. I got the ladies from North Carolina, number 249.

Isn't that 200? And they look so beautiful. We have a lot of people. They followed us, but we're going to do something.

The ladies can tell you what we're going to do. We're going to drill a baby drill, and I will terminate the Green New Scam and we'll cut your energy prices in half 50% within one year from January 20th. Is the fake news hearing that? Whoa, look how much.

Wow, that's a lot of fake news. That is a lot of fake news. Look at that.

(9:25 - 9:33)

Wow, that's got to be a record, Mr Speaker. I think that's a record. That is a lot of fakers back there.

(9:35 - 10:20)

To bring back millions of jobs, we will give our companies the lowest taxes, the lowest energy cost, the lowest regulatory burdens and free access to the best and biggest market on the planet. Remember this. If we keep going like this, we won't have the biggest and the best.

We won't have a market. We won't have a country, but only for those who make their product here in the USA and hire American workers for the job. And if these companies

don't make their products here, then they will pay a very stiff tariff when they send their products into the United States for the privilege of competing with our workers and our now protected companies.

(10:20 - 10:25)

We're going to protect our companies. They're not leaving anymore. They're not leaving anymore.

(10:28 - 10:52)

We're also going to pass the Trump Reciprocal Trade Act, meaning if China or any other country charges us 100 or 200 percent tax or tariff, we will then charge them a 100 or 200 percent tax or tariff. It's called an eye for an eye. And I will never apologize for defending America.

(10:53 - 10:58)

I will protect our workers. I will protect our jobs. I will protect our borders.

(10:58 - 11:22)

I will protect our great families, and I will protect the birthright of our children to live in the richest and most powerful nation on the face of the earth. As we rescue our economy, I will also restore our borders. There's never been anything like it.

(11:24 - 11:37)

It's bigger than inflation. It's bigger than the economy. What they're doing to our country, they're allowing criminals from all over the world to enter our country.

(11:38 - 15:07)

Over the past four years, Kamala Harris has orchestrated the most egregious betrayal that any leader in American history has ever inflicted upon our people. She has violated her oath, eradicated our sovereign border, and unleashed an army of migrant gangs who are waging a campaign of violence and terror against our citizens. There has never been anything like it anywhere in the world for any country.

Kamala has imported criminal migrants from prisons and jails, insane asylums, and mental institutions from all around the world, from Venezuela to the Congo. A lot of people are coming from the Congo prisons. They're coming from all over the world.

Over the last month, 181 countries violated our laws, and she has resettled them into your communities to prey upon innocent American citizens. But the day I take the oath of office, the migrant invasion of our country ends, and the restoration of our country

begins. One of the deadliest and most vicious migrant gangs that Kamala has imported into our country is the savage Venezuelan prison gang.

Nice group of people. They got together in prison. The worst prison in the world, they say.

It's called Tren de Aragua. And that is taking over apartment complexes and unleashing a violent killing spree all over America, especially in Aurora, Colorado, where we have a governor who's petrified of them, and maybe he should be. But now they've even taken over Times Square.

Take a look. Border's deadly consequences. Border crisis.

Record high crossings are putting a strain on cities across America. It is a full-blown invasion. Armed Venezuelan gang members storming an apartment complex in Aurora, Colorado.

When people talk about migrant crime, this is what they're talking about. San Antonio, Texas, just one of the latest cities to have apartment complexes taken over by members of the Venezuelan gang. Biden and Harris had created a program to bring them in on the humanitarian pull.

I am in favor of saying that we're not going to treat people who are undocumented cross-border criminals. More than 13,000 illegal immigrants convicted of murder have been released into the United States. My three-year-old daughter, Kayla Hamilton, was murdered in her own room.

Kayla's murderer was apprehended by border patrol crossing illegally into the U.S. Kayla's murderer had been improperly released into the United States. Abolish ICE. Yeah, we need to probably think about starting from scratch.

More than a dozen people suspected of being Tren de Aragua gang members right here in San Antonio. The gang members had been terrorizing the apartment complex. New details in the murder of Lincoln Riley.

The illegal immigrant suspect who cops say committed the heinous murder is a Venezuelan national. He was pulled and released into the country by the Biden administration. Two men investigators say are in the country illegally from Venezuela are charged with capital murder and the death of Jocelyn Mangaray.

(15:07 - 15:44)

Martinez and Angel wrapped his arms around Jocelyn's neck, took off her pants, and climbed on top of her. Later strangled Jocelyn to death and then tied up her hands and feet. Court documents suggest a group of men arrested for beating and robbing a Dallas

woman last month are members of a Venezuelan street gang.

The man threatened to cut off her fingers if she did not cooperate. Manuel Hernandez Hernandez was booked by Colleyville police just two days earlier and released the day before the robbery. A Peruvian gang leader who was wanted for 23 murders who was arrested by Border Patrol near Rolla, Texas, then released into America.

(15:51 - 15:59)

That's who we're allowing into our country. We're not going to have a country any longer. That's who we're allowing.

(15:59 - 17:45)

And the United States is now an occupied country, but it will soon be an occupied country no longer. Not going to be happening. Not going to be happening.

November 5th, 2024, nine days from now will be Liberation Day in America. It's going to be Liberation Day. On day one, I will launch the largest deportation program in American history to get the criminals out.

I will rescue every city and town that has been invaded and conquered, and we will put these vicious and bloodthirsty criminals in jail and kick them the hell out of our country as fast as possible. And to expedite removals of Trinidad, Uruguay and other savage gangs like MS-13, which is equally vicious. I will invoke the Alien Enemies Act of 1798.

Think of that. That's how far back. That's when they had law and order.

They had some tough ones. Think of it, the Alien Enemies Act of 1798. You hear that, Mr. Speaker? Get ready to target and dismantle every migrant criminal network operating on American soil.

(17:45 - 17:50)

And there are lots of them. We don't have the same country anymore. You know that.

(17:50 - 20:34)

And, you know, when you look at the polls and they say about the economy and they have all these different things, the worst nightmare that we're facing is what they've done to us on our borders. We had the safest border in the world. In fact, there's a chart, which I hope they have, because I didn't tell him I wanted it.

But there's a chart that I love very much because I wouldn't be here without it. That's it. I love it.

I'm in love with it. I love that chart. Even if it had bad numbers, I would have loved that

chart.

But it does. It has great numbers. And if you look at the arrow on the bottom, you'll see that was the day I left office.

That was the lowest illegal immigration that we've ever had in recorded history, the recorded history of our country. And then look at it. It was like an Elon Musk rocket ship.

Look at what happens. Look at what happened after that. And if they come back into our country, it's an automatic 10 years in jail with no possibility of parole.

And I'm hereby calling for the death penalty for any migrant that kills an American citizen or law enforcement officer. Under Kamala, America is a sanctuary for criminals and for illegal aliens that are in our country illegally. I will immediately ban all sanctuary cities in the United States.

Kamala's gross incompetence disqualifies her from being president of the United States of America. She is grossly incompetent. All you have to do is look at her interviews.

Look at what she did the other night on fake news, CNN. Just take a look. Couldn't answer a question.

She's unfit for office. Everyone knows it. No one respects her.

No one trusts her. No one takes her seriously. Everyone knows she is a very low IQ individual.

(20:37 - 22:01)

From humiliating our country in Afghanistan to the war in Ukraine, to the nightmare on our border, to her inflation catastrophe, all done in conjunction with Sleepy Joe. But he was largely sleeping, wasn't he? After four o'clock, it's time to go to bed. To his and her egregious hurricane response, the worst response in North Carolina and other states since Katrina.

But I think it was even worse than Katrina. They haven't even responded in North Carolina. They haven't even responded.

There's nobody. They don't see any FEMA. You know why? They spent their money on bringing in illegal migrants.

So they didn't have money for Georgia and North Carolina and Alabama and Tennessee and Florida and South Carolina. They didn't have any money for them. They spent all of their money on bringing in illegal immigrants and flying them in by beautiful jet planes.

They flew in. We just found that about a year and a half ago. Remember, we said, what's

going on? Those planes, a lot of planes going over there.

What are they? They would fly them into the middle of our country, our beautiful, beautiful country. And you know what happened? You take a look at Springfield, Ohio. Think of this.

(22:01 - 24:02)

Where? Think of this. Where 30,000 illegal migrants were put into a town of 50,000 people. No, no place can withstand that.

Or take a look at Aurora in Colorado. Colorado is going to vote for us. You know why? Typically, they go a little bit the other way.

Of course, with their voting system, I'm not so sure about that. But you know why? Because they tried to throw the leading candidate of both parties, meaning me. I was leading both parties off the ballot.

And the people of Colorado, including Democrats, are very angry about it. They are a threat to democracy, to use that term. Isn't it nice to have somebody that's your president that doesn't need a teleprompter? We haven't been on teleprompter for a long time.

I haven't been on this teleprompter. No, it is nice. You saw the other day where Kamala got a little stuck on the teleprompter, went a little bad, it stopped on her.

You have to be, you know, if you're a politician, you have to be able to handle that. Remember, you have to do the weave, he says. You got to do more than the weave.

But it happens a lot as a politician. It happens. I mean, we have so many politicians here, great ones, really great.

Some are not so good, but great ones. And when Newt or when the speaker or when Tommy Tuberville, who's here someplace, a great senator from Alabama, or when any one of our literally 75, by the way, should I introduce all of them by name? I should. Should I? No.

Yes. I don't know. It's a lot.

(24:04 - 27:47)

Speaker, should I? I don't know. Will they be angry? Yeah, they will. It's a lot of introducing, right? Let's keep going with this speech.

But, you know, when you have a when you're in this profession, I have a friend who wanted to come in. I said, What's your you like speaking? Well, I do. But I have a great

fear of speaking.

I said, Don't be a politician. If you have a fear of speaking, don't be a politician. But one thing you have to know is that no matter how good your people are that operate this machinery, it's going to break and you're going to be out there all by yourself a lot.

And you've got to be able to do so. Three weeks ago, she was saying there was only 32 days left, right? And she's reading it like this 32 days and it stopped. And she went this 32 days, 32 32.

And I was watching. I said, This isn't pretty. 32.

She was gone. And then, damn it, it kicked back on. She was gone.

We've had it happens a lot. And don't forget, you had all those people back there. Now they don't talk about her.

But if that ever happened, it happens all the time. I was campaigning in Ohio for a very, very Bernie Marina. He's doing a good job.

I think he's maybe going to win in Ohio. The problem he's got his opponent, Brown, Sherrod Brown. He's taking ads in like he's my best friend.

He never votes for me. He's not my best friend. Ohio's been very friendly to Trump.

We win it all the time by a landslide. But the opponent is taking as I got four of them. I think we have four of them, right? They're taking ads.

All of a sudden, they love Trump. We agree with Trump on tariffs. We agree with Trump on the border.

We love Trump and their Democrats, their friends calling up. Did they switch to the Republican Party? But it happened with Bernie Marina. I was in Ohio to try and get him over the initial primary hump, and it was 45 mile an hour winds.

And these suckers were blowing like you ever try reading a teleprompter where it's moving about two feet in each. But I didn't have to worry about that, because even worse, they ended up blowing off the stage a lot of it. So I'm now in the first sentence, and I got 28000 people and millions of people watching on television.

I got no teleprompter. And did I do a good job, Mr. Speaker? Anyone? Anyone? Thank you, Matt. Anyone? And so you're up there all alone.

We don't go 32 32 30. Oh, my God, whatever. Kamala Harris is a train wreck who has destroyed everything in her path to make her president would be a gamble with the lives of millions and millions of people.

She would get us into World War Three. We're very close to World War Three. If you don't have a smart president, you don't have a president against it.

If you don't have a president that is respected by the other side, and they did respect us four years ago, they really respected us. Iran was broke. They had no money.

Russia wouldn't have played with us at all. Russia would have never gone into Ukraine. Israel, October 7th would never, ever have happened.

(27:47 - 31:44)

Would have never happened. All those all those people would be alive right now. Those people that were killed on that horrible day.

But if you don't have a president that gets it, you know, you know what else you wouldn't have had? You wouldn't have had that. The most embarrassing day in the history of our country, in my opinion, Afghanistan, the way they not that they got out. We were getting out, but we were going to get out with dignity and strength.

We got out an embarrassment, the likes of which this country has never suffered. And because of that, Putin looked at us, and they probably figured we were a paper tiger. And he went into Ukraine, and the rest is history would have never happened with us.

And you wouldn't have had any inflation. You know, we had the best economy. We had no inflation.

And inflation has destroyed a lot of seniors on fixed income. And a lot of people in this room have been virtually destroyed by inflation. You wouldn't have had inflation.

They screwed up our energy, and it went up so much. And then they started spending far too much money on things like the Green New Scam, which is just a scam, just a complete scam. They actually admitted that if you think about it.

But she would get us into World War Three because she's incompetent, can't do the job, unfit for it. And then all of your sons and daughters will end up getting a little notice. They'll say, Mom, Dad, what is this little green piece of paper? Ay-yi-yi, darling, that's a draft notice.

They're drafting you to go and fight in some country that I've never heard this country. I've never heard of this country before. Oh, no, I don't want my baby to fight.

I don't want my baby to be killed. What they did in Afghanistan with those 13 great soldiers, I've gotten to know the parents so well and leaving all of that equipment behind and leaving Americans behind. And many, many people with no legs and no arms, all because of incompetent people.

But we don't want your sons and daughters to get a little draft notice, and you have to explain to them what it means. We're tired of fighting. I'm the only president in the last 84 years that didn't start a war.

Remember Crooked Hillary? Remember Crooked Hillary Clinton? Crooked Hillary, oh, she was a beauty. During one of our many debates, she said, Look at him. Listen to him.

He's going to start a war. Listen to his rhetoric. He's going to start a war.

I said, No, no, no. My rhetoric is going to keep us out of wars. And that's what happened.

82 years other than I finished off ISIS. But that was already started. We had stupid generals like Millie and Mattis.

Weak, stupid people. But fear not. We have great generals, just not the ones that you see on television all the time.

And we wiped them out very quickly. It was going to take five years. Mattis said it would take five years, and I'm not sure we could do it.

It took us like four weeks. We have great generals. We have the greatest military in the world.

Just a lot of people don't know that. And everybody knows it. But you know, I saw the other day a report that they issued that if we end up in a war with China, we cannot win.

We're not strong enough. So I said to myself, assuming that's true, how stupid are you to put out a report like that? How stupid? Why would you put out a report? Then they'll say, Oh, Trump is not truthful. No, I'm smart.

You don't put out reports like that. And it's not true. We would kick their ass.

(31:44 - 37:40)

It's not true. Our enemies are laughing at her. They want her to win so badly.

Oh, they don't want Trump. They don't want Trump. I've made this position a very dangerous one because of that.

That's why it's a very dangerous. You know, if you drive a race car, you have one tenth of one percent chance of dying. If you ride the bulls, I think the bulls are pretty nasty, right? You have about the same one tenth of one percent of dying.

If you become president of the United States, you got a hell of a shot at dying. I never knew that when I ran. I never thought about it.

But but here we are. And I'm okay with it. And I would rather be here than any place in

the world.

It's called a very dangerous profession. But if we win, our enemies won't be laughing anymore. They're not going to be laughing.

And you know what? The truth is, I got along with all of them. I got along with Putin. Ukraine was the apple of his eye.

But I said, Vladimir, don't go in. Remember, I ended the pipeline in Europe. I ended the pipeline in Europe.

And then when Biden came in, he approved it. But he ended the Keystone pipeline, the one in America. So he got it.

He got it a little mixed up, didn't he? Huh? Nord Stream two. I said, we're ending Nord Stream two. Everybody said, what is Nord Stream two? I said, that's the massive Russian pipeline where they're going to make a fortune, where they're going to Germany and all countries in Europe.

So I said, you mean we're fighting to help them with NATO and spending all of that money and they're paying the person and the group that we're fighting billions of dollars a month? What the hell are we doing? I ended it. It was dead. And Biden came along and he approved it.

Weak. Look, 30 years ago, he was not considered smart either. So now he's really that smart.

If we win, America will be respected. And even if it's necessary, fear it again. It's not the worst word.

On issue after issue, Kamala broke it, but I will fix it. We're going to fix it. But we're just not running against Kamala.

I think a lot of our politicians here tonight know this. She means nothing. She's purely a vessel.

That's all she is. When you see her up there talking about the grass on my front lawn, I grew up in a middle class neighborhood and I had grass on my front lawn. Yeah, but we're asking what would you do to fix the country? And why didn't you do it yet? Almost four years.

Why didn't you do this stuff now? She's you know, she's becoming more maggot than those politicians. I just told you about from the different sides. She can't put two sentences together.

She's just like she's really just like in many ways. Crooked Joe Biden. And she never said

to us.

She never told us that Joe was not functioning properly. She should have because, you know, we're talking about the life of the most important country in the world. We need very smart people.

We're running against something far bigger than Joe or Kamala and far more powerful than them, which is a massive, vicious, crooked, radical left machine that runs today's Democrat Party. They're just vessels. In fact, they're perfect vessels because they'll never give them a hard time.

They'll do whatever they want. I know many of them. It's just this amorphous group of people.

But they're smart and they're vicious. And we have to defeat them. And when I say the enemy from within, the other side goes crazy, becomes a sound.

Oh, how can he say? No, they've done very bad things to this country. They are indeed the enemy from within. But this is who we're fighting.

These are the people who are doing such harm to our country with their open border policies, record setting inflation, green news scam and everything else that they're doing. But we're not going to let it happen any longer. We're going to have the biggest victory in the history of our country on November 5th.

It's going to be the biggest victory. We're going to make America great again, everybody. On top of it all, Kamala say she would not do one thing differently from Joe Biden, which is totally disqualifying.

And you have to remember this. All of the sex you made and you know what? Maybe is the worst, but they're also bad. Think of this.

Three hundred and twenty five thousand children are missing dead sex slaves or slaves. They came through the open border and they're gone. Their parents will most likely never see them again.

Almost any of them. Think of the number three hundred and twenty five thousand children are missing or dead. Take a look at this, please.

(37:41 - 38:00)

Would you have done something differently than President Biden during the past four years? There is not a thing that comes to mind. I stood there on the tarmac watching you turn your watch. The chaotic and deadly U.S. evacuation from Afghanistan stunned Americans and the world and cost the lives of 13 U.S. soldiers.

(38:00 - 38:31)

Would you have done something differently? There is not a thing that comes to mind. More than 13,000 illegal immigrants convicted of murder have been caught at the border and then released into the United States. The Afghan national is in custody today after being accused of plotting an election day terrorist attack.

The suspect entered the U.S. on a special immigrant visa. Not mentioning new details in the murder of Georgia nursing student Leahy Riley. The illegal immigrant suspect who cops say committed the heinous murder is a Venezuelan national who crossed the unsecured southern border back in 2022.

(38:31 - 38:50)

Two men investigators say are in the country illegally from Venezuela are charged with capital murder and the death of Jocelyn Manderay. A fifth illegal immigrant accused of attacking two New York City police officers over the weekend showed no remorse or regret. Would you have done something differently? There is not a thing that comes to mind.

(38:50 - 39:27)

Only 18 percent say the economy is in excellent or good condition. U.S. inflation has hit a new 40-year high, increasing by 9.1 percent over the financial year. Authorities saying train day Aragua, which has been linked with more than 100 criminal investigations here in the U.S., has now been found operating its criminal enterprise in apartment complexes.

Were you the last person in the room? Yes. So if you want to end this disaster, you got to get out and vote. Just go out and vote.

(39:29 - 39:57)

You got to get out. We have to put it away. We're close.

We're so close. You know, usually the Republicans are losing in the first week in the early voting, and we did something that has not been done. I don't think speaker has been done yet, but it's been done for us.

We're leading every one of the swing states, all seven of them. We usually get them from behind, because Republicans like to vote on a thing called Election Day. You know, in the old days, we had election days.

(39:58 - 40:20)

Today, we have election periods. They go on forever. And last time they went beyond

and start early, start late, do whatever the hell you want.

You know, we got more votes in 2020 than any sitting president in history by millions. And we did great. Obviously, in 2016, we won, but we did much better in 2020.

(40:21 - 41:33)

But everything, nothing compares to what's happening. I mean, you have tens of thousands of people standing outside watching us on a television, and we love you out there. We love you.

They're watching. But both of those great races, both of them don't compare to what's happening now. In Florida, we took a massive lead.

And all of these places. I mean, there's something happening that's really good. There's something happening that's really good.

But let's close it out. Pretend you're one point down. Would everybody pretend? Let me just do a poll.

Who has already voted? Who is going to vote? That's what I like. That would be better than the other way if you've already voted. So I'd say 16, 17, maybe 20 percent.

And we're leading. And most of you haven't voted, but you promise you're going to vote. Everybody promise.

(41:33 - 42:25)

A lot of people in here. Well, the beauty is that, you know, a Republican likes to vote late and they like to vote and make sure their votes in the box. Right.

They want to vote. They just feel better about it. And so we had a lot of people voting.

But really, that's the same. I do it in every event. I say who's voted for the last three minutes last night.

It was at Penn State, a great place I met. I actually met. This is an amazing the national championship wrestling team.

They won the Penn State, won the national championship. But listen to this. Eleven out of the last 13 years, even Jim Jordan would be impressed by that.

You know, Jim Jordan is a great guy. He's a great wrestler, all American wrestler. Jim, you can see it by the way he acts.

(42:26 - 43:07)

Not afraid of anything. Right. And I looked at those guys and they're rough as hell.

I said, you may be. You may be the only people that can take trendy Iraq war in a fight. And it won't even be that easy for them.

They're tough people. But it was great to meet that team. And there's great champions, amazing, really great champions.

And we were packed at Penn State. We were packed. No, no matter where we go, we're packed no matter where we go, because there's something happening.

And there's something happening is they want to take back their country. People want to take back their country. You love the country.

I love the country. We want to take it back. I could be right now on the most beautiful beach in the world.

(43:07 - 43:39)

I could be at Turnberry in Scotland. I own it. I could be anywhere.

I got that greatest. I don't have to be here, but I would much rather be at Madison Square Garden with you. So we're thrilled to be joined today by an incredible group of patriots who are going to help us save our country, including our next vice president, J.D. Vance.

(43:48 - 44:16)

And a man who was so incredible last week, I watched I watched that rocket ship come down. I'd never seen. I told this story last night.

I was on the phone with a very, very important person, and I'm talking to him and I'm watching the television while I'm talking to this guy's boring as hell. And I said, wait a minute, wait, wait, wait a minute. I'm looking at the screen.

(44:16 - 44:29)

And I see this rocket pour in the fire. The flames are all over the place. It was white a week ago, and now it's pitch black from the burning coming down at 10000 miles an hour.

(44:30 - 45:24)

It's coming down at a lot of years. There is my exact. You know what he was doing for the last week? Campaigning in Pennsylvania.

He's a sweetheart, too. So I'm talking to this guy, very important guy, big, big guy. And I

have the television screen on and there's rockets coming down.

I said, you know, it was pure, beautiful, white when it left. But it's burned from the fire and the flame. And it is.

And now I see it coming down like this. And it's like 20 stories tall or something. It's it's massive.

And it's coming down. I say to the guy, Hey, do me a favor. Will you hold on a minute? Just hold on.

I'm going to talk. This is like one of the most important people I'm watching. So just hold on.

I put the phone down. By the way, I never picked it up again. You know what these people are going to say? He's cognitively impaired.

(45:24 - 46:42)

It's cognitively. Oh, oh, you don't think so? They're the worst. They are the worst.

So I put it down and I'm watching this rocket and I see the engines. I said, Oh, it's gonna crash. No, because it was looking right next to a gantry.

I guess they call it the gantry, whatever the hell they call it, the launching pad. And it's coming down at a bad angle, Ilana. I wasn't happy.

And I was a little worried. You might have been worried, too. I said, Oh, no, it's not going to be good.

And then all of a sudden I saw the flame on the bottom left and it was ripping. The flame was pouring out of that sucker and it straightened it out like this. And it came down and it landed.

And then it's two of these big, beautiful arms grabbed it and they held it tight. And I said, I wasn't sure it was a movie. Actually, I thought it might be one of these crazy movies.

And I said, I got to call Ilana. And I call him. I said, Ilana, was that you? This is like about four minutes after.

Was that you? Yeah, that was me. I say, Ilana, you're a genius. You are a genius.

You are. He is special. He is special.

(46:44 - 47:24)

And you know what he wants more than anything else for our country to be really well

run, solidly run, to be run democratically, all the things that everybody in this room wants. And I mean, honestly, he left that pad and he went to Pennsylvania to campaign. Can you believe it? And I asked him a couple of questions.

I said, Ilana, let me ask you a question. Can Russia do that? No. Can China do that? No.

Can anybody do that other than you? Nobody else can do it. Nobody else can do it. Pretty good.

(47:25 - 48:10)

And he said, and they won't be able to for 10 years, you said, right? They won't be able to for 10 years. No, he's amazing. And he's a great guy too.

He really is. Gotta remember him. This is a piece of work.

You know, we had a black hat, right? You saw him with a black hat at Butler. He was there. It was beautiful.

We had 101,000 people celebrating a great firefighter, a great guy, Cory. And Ilana got up and I didn't even know we made a black hat. I've never seen anybody wear it.

I see the red hats all over the place. The white hats I see all different, but I never saw black, but he liked the black. You know, he said it was different.

(48:11 - 48:15)

It's a black hat with black letters. Okay. It's called understated.

(48:15 - 48:30)

And he, I said, you like that hat? He said, I love that hat. I call it dark MAGA. But you know that after that evening, that became our number one bestselling.

(48:30 - 49:11)

After that, all I have to do is put something on them. Now you're great. And thank you very much.

Thank you very much. It's great. And we also have somebody that is great.

And look, we're not going to let it go too crazy. Elon with the oil and gas stuff. And you know, because Robert F. Kennedy cares more about human beings and health and the environment than anybody.

And he's going to be absolutely having him is such a great honor. I've been friends with his for a long time and I'm going to let him go wild on health. I'm going to let him go wild

on the food.

(49:11 - 50:14)

I'm going to let him go wild on medicines. The only thing I don't think I'm going to let him even get near is the liquid gold that we have under our feet. I don't know, Ilan.

He might not like liquid gold. It's oil and gas sometimes referred to as oil and gas. JD, I think we're going to have to keep him away from the oil and gas.

What do you think, Howard? Yes. But where is Robert? He's a red. He gave a beautiful speech.

He's a great guy. He truly cares. I mean, he truly cares about this and, and it's an honor.

And we're also pleased to be joined by my beautiful wife. She's got the number one bestselling book in the whole universe, New York Times. Number one, bestselling go out and buy one of them.

It's a great book. You know what? I was nervous when I read it. I said, I wonder if she said some bad stuff about me.

I was very nervous, but she's great. Congratulations on it. That's a big deal.

(50:14 - 51:32)

Number one in the New York Times list. Now, if she's number one and her name is Trump on the New York Times list, that book definitely was number one. I guarantee you that.

Thank you, Lenny. Great. And we have a fabulous, brilliant woman, top, top student, top student at Yale Law School.

They were both top students. They're going to have very smart kids. If you believe in that, I believe in it strongly.

I would like to have their children because they are going to be smart. Yale Law School, top of the class, both of them. Usha Vance.

Thank you for being here. Thank you. Thank you very much with their two beautiful children and my children here, Don and Eric and Tiffany and along with Lara, Kimberly and Michael.

We have great people. We have Baron home. He's watching that Baron is watching.

He's the king of the Internet. He's the king of the Internet. Oh, who was that? That's very nice.

My sister Elizabeth is here. She's great. I don't know where she is, but she's great and we love her.

(51:34 - 52:48)

And Speaker Mike Johnson is here and he's doing a great job. It's not easy when you have a majority of three, but he's done a great job and he's going to continue to do a great job. And we like him.

He's a terrific person. I watched him just totally decapitate a fake reporter on NBC. Meet the press.

Meet the fake press. What he did to her was I think that probably she'll never be the same. Nobody would look at him.

Such a nice looking guy. Just a little beautiful face with the glasses. Got the little glasses.

Everyone said, Oh, he's so nice. He's such a nice person. He's not a nice person.

He's not nice at all. Right, Matt? But great job. We think he's great and he's going to be around for a long time.

I predict we have a senator here. I love Senator Tommy Tuberville. And he's from a great place.

Alabama. I love Alabama. I'm up in Alabama by forty nine points.

Forty nine points. We're up by a lot in a lot of different places, but it's a great place. And thank you, Tommy.

(52:49 - 53:07)

And all of our other great Congress. And we have so many of I ever named. We're going to be up here a long time.

So they're going to be angry. They won't speak to me for probably a month or so, but it'll calm down after that. Right, Matt Gaetz? It'll calm down.

It'll calm down. But we have great, great people and they're really doing a job. And we're going to turn this country around.

(53:07 - 56:21)

You know, with me, we got to get the congressman elected and we got to get the senators elected because we can take the Senate pretty easily. And I think with our little secret, we're going to do really well with the house. Right.

Our little secret is having a big impact. He and I have a secret. We'll tell you what it is when the race is over.

I also want to thank Jim Dolan and everyone at Madison Square Garden for an unbelievable. This is unbelievable. I've watched the Knicks and Rangers here and what a location.

You know, they tried to talk Jim out of this location. We're going to move you to the river. We're going to move you all over the place that he's tough.

He said, I don't know. They offered him all sorts of money. We're going to move.

Madison is a very prime location. We're going to move it to the river. Well, we're right on top of every train hub in the like the world or something right here.

And he didn't like it that much, but he was over a lot. Man, did he make a good decision that would have been peanuts compared to the value. But there's no place like Madison Square Garden.

Thank you very much to Jim and all your people. But here are the facts. Kamala Harris is a radical left Marxist rated even worse than crazy Bernie Sanders or Pocahontas.

She destroyed our economy. She was an original creator of defund the police. Can you believe it? She was one of the originals would defund the police.

And anybody who wants to defund our great police for even one week is not worthy of being president of the United States because because that's where her thinking is. Kamala vowed to abolish ice. You know, those tough people you've been looking up at the screen.

They're the ones that get them out of our country there. I know a lot of people right in these rows are very tough. They don't want any part of it.

They got to go in there. Fist fist ablazing to move them. You know, we had a case in Long Island where MS-13, one of the other really bad gangs, killed two young girls, 16 years old, walking to school.

They didn't shoot him. They knifed him and they cut him into little pieces because it was so painful. Perfect, perfect, young, beautiful girls were cut up into little pieces by knives.

MS-13, they're animals. And you know who took care of it for us? Ice. Ice.

They had no problem. Kamala wants to defund us. We're not defunding ice, right? You're not defunding ice.

We're not even going to think about it. She's never going to get the chance. There's no

way she becomes president.

There's no way. Radical left lunatic who destroyed. She destroyed San Francisco.

She destroyed along with Gavin Newsome, the governor, who is the worst, one of the worst governors in the country. They destroyed California. And she's not going to get a chance to destroy our country any further.

(56:21 - 56:39)

We're going to get it back fast. She wants to ban fracking. And as California Attorney General, she redefined child sex trafficking, assault with a deadly weapon and rape of an unconscious person.

(56:39 - 57:22)

As a totally nonviolent crime, she pledged to confiscate your guns. Is there anybody in the room that would like to give up their gun to? I had a feeling you might say that. And endorsed a total ban on handgun ownership.

I don't think that's good. When a criminal crawls into your house at night, it would be nice to be able to at least have a chance, wouldn't it? Wouldn't it be nice? She even called for a free sex change operations on illegal aliens in detention at taxpayer expense. Think of it at taxpayer.

(57:22 - 57:44)

She said they're caught. They're illegally detained. But if they want a sex change operation, she's all in favor.

Now, she gave this stuff up about a year ago, a little more because it didn't work. It wasn't working too well with the electorate. But she'll be back to it because that's where she's a radical left person from San Francisco.

(57:44 - 59:44)

She destroyed the place. But, you know, she lied about that. But she also lied about something very important.

For years and years, she said she had a job at McDonald's. And the reason I went there last week, you know, that I got a call from Sundar, very smart guy at Google. He said this is the most amazing thing.

We've had just about more hits on this crazy McDonald's store. And I went there just to prove a little point. So you never know how something is going to work out, Mr. VP, do you? But he called and he said we've had more hits on McDonald's than I think he said

anything we've ever had.

But let's say it's close. And did anybody watch Joe Rogan recently? So she lied about McDonald's. She lied about everything.

She's got ads on saying Donald Trump is this. He's going to do this. He's going to do it's the exact opposite what my policies are.

He's got she's got me doing this. He doesn't want to frack. No, no.

I'm all for fracking. And I have been for one thing. I have been even the enemy because they are the enemy.

What they've said, even that enemy, too. And they're really the enemy. They're the enemy of the people, the press.

They said one thing about me that I consider a great compliment. They said this guy is the most consistent person we've ever seen because I've been against cars and car factories being taken out of Detroit and being taken out of our manufacturing of automobiles, being taken out of our system, out of our country for years. I've been against all of the things that are happening and have happened.

We stopped it. And now we now it's happening again. When you have 50,000 manufacturing jobs lost in just a short period of time.

But I've been the most consistent because we're going to bring our manufacturing back to the United States. It's all coming back. So get ready.

(59:45 - 1:01:54)

Get ready. You're going to have your choice of great jobs. And on top of all this, Kamala tried to turn our military woke.

So tonight, whether you are a Republican, Democrat or independent, conservative or liberal, I'm inviting you to join the greatest political movement in the history of our country. It's really the. You know, it's the greatest movement in the history of our country.

I told the story years ago. There's a guy is great guy, older guy now, very old. But he was great.

Conservative guy. Pat Buchanan. Right.

We know Pat Buchanan. He came in second in the New Hampshire primary. And for 45 years, he made an unbelievable career of it.

He was a hot item. He was on every show. I became in second in one primary.

We came in first in 50 primaries. We then had a great election that we won. We then had another great election that we get a hell of a lot better in.

Bad things happen. We're not going to let that happen. Covid.

They used Covid to cheat. But we then had an election. But now we have the election of all.

This will be, in my opinion, I have to say, if because, you know, there's always risks, I guess. But if we pull this off, this will be the biggest political event in the history of our country. Right.

And we're building the biggest, broadest, most diverse coalition in American history, including union workers and Border Patrol agents. By the way, the Border Patrol gave me last week their complete and total endorsement. They said he's the greatest president in the history of the country.

But we don't have to go that far. And they said there's never been anybody like him on the border. They said to him, the fake news said, Has she ever called? You know, they didn't like that answer, by the way.

(1:01:54 - 1:02:03)

Then they asked her, Have you ever called? No, she never called. Almost four years. She never called.

Not once. The Border Patrol. And she was the borders are she was in charge of the border.

(1:02:04 - 1:03:40)

Think of it. Four years. She never called.

Now she's trying to say, Well, you know, I was really not the border, whether she was the borders are or not. She was put in charge of the border by Sleepy Joe. Then he went to bed.

He put her in charge went to bed. She did the worst job on the border than anybody has done in the history of the world. There's never been a border like this in the world.

And a third world country would fight people with sticks and stones to stop them from pouring into that country. And we let him just come right in. What a shame.

What a shame. Police and firefighters. Also, we have every endorsement from virtually every sheriff's department, police department.

I don't think they have one cop. They're looking for just one cop. Is there one? Well, it's

not going to be in New York's finest, by the way.

How good are the police outside New York? And you know, I want to thank Mayor Adams because Mayor Adams has been treated pretty badly. You know, when he said that this whole thing with the migrants coming into New York, this is just not sustainable. You know, we can't do it.

We're trying to run a city. We got 100,000 migrants coming. We got to.

We can't do it. It just can't do it. It's not feasible.

It's not not good. He said it very nicely. I said, Well, he's going to be indicted by these lunatics.

(1:03:40 - 1:03:51)

A year later, he got indicted. I think they upgraded his seat in an airplane. I had this a very serious charge.

(1:03:52 - 1:03:57)

They've upgraded my seat a lot, too. I used to fly commercial. I don't fly so much anymore.

(1:03:58 - 1:05:07)

But they'd see me back there. And sure, would you like an upgrade? I don't know. Maybe it's something else.

But I have to tell you, he's been really great. And he said that they shouldn't be calling Trump a dictator because it's not true. That's nice.

Very nice. So we want to thank Mayor Adams going through a hard time with these people. These are lunatics, by the way.

They've weaponized the Justice Department against their political opponent. I am under investigation more than the great late Alphonse Capone. My father's looking down on me right now.

He's a tough guy, but he was like legit. And I know my mother's in heaven. I'm not 100% sure of my father, but it's close.

But he's looking down at me right now. And he's saying, How the hell did this happen to my son? He's not a bad person. I'm a good person.

All we want to do is straighten out our country. But all of the veterans are with us, all of the steel workers. I saved our steel.

(1:05:07 - 1:06:25)

I saved our steel plants. And I don't like Japan buying U.S. Steel. U.S. Steel used to be like Elon Musk, like 70 years ago, the biggest, the best company in the world.

You know that, Elon? You wouldn't know. He's too young to know. U.S. Steel was the big baby.

That was a big — I don't know. There's something nice about U.S. Steel being the biggest, as opposed to Google. You know, it's like a different kind of a company.

But we sort of need steel in this country. Like, we're not going to go to war with me as your president. But if we — on the long shot that we do, we don't want to say, We need steel.

Can we get it from China? Or can we get it from someplace else? Could — you know, it's always a possibility. But I will tell you, you're not going to have a war with me, and you're not going to have a Third World War with me. That I can tell you.

But we need steel. And I would not approve U.S. Steel being bought by Japan. I wouldn't do it.

Just out of — psychologically, not good. We'll help them out. But we don't — I don't like it.

We're seeing historic levels of support among our black population, Hispanic population, and our Asian population. Jews, Muslims, by the way. Did anybody see yesterday? Did anybody see what took place? I was with the Muslims yesterday in Michigan.

(1:06:25 - 1:09:18)

And when the polls first came out, they had 100 percent. I had zero. And yesterday, I watched this anchor on CNN almost choke.

She said, Something's happening in Michigan. Big population. Couple of hundred thousand.

A lot of votes. Something's happening. The poll just came out.

Trump is at 59. Kamala is at eight with the Muslim population. They never saw anything like that, either.

And these are people — by the way, they're great. They just want peace. They want to have peace.

And it's great. So, Jews and Muslims and Catholics and evangelicals and Mormons, they're all joining our cause in large numbers, larger than anyone has ever seen in this

country before. Larger than they've ever seen in any country.

And the Republican Party has really become the party of inclusion. And that's something very nice about that. And we're a big, powerful party.

And they're losing it. They're really losing it. Together, we will lift America to glory beyond your wildest dreams.

It's going to happen fast, too. So, in conclusion, with your vote this November, we are going to fire Kamala, and we are going to save America. We will cut your taxes, end inflation, slash your prices, raise your wages, and bring thousands and thousands of factories back to America.

We're even going to get Elon to bring that stuff back. We will build America, we will buy America, and we will hire America. I will end the war in Ukraine, which would have never happened if I were president.

I will stop the chaos in the Middle East, and I will prevent World War III from happening. We will crush violent crime and give our police the support, protection, resources, and respect that they so dearly deserve. We will strengthen and modernize our military.

I rebuilt our military in total. We built all of our military. Built 571 miles of wall, too.

I took it out of the military because I couldn't get it from the people in Congress that should have given it to us. So I considered it an invasion. I said to a couple of generals, I said, congratulations, this is an invasion of our country.

So I took it out of the military, had nine lawsuits and won them all. We will build a massive defense shield, all made in the USA. We're going to build a beautiful dome over our country, and a lot of it's going to be made right here in New York.

(1:09:19 - 1:09:38)

We will rebuild our cities, including our capital in Washington, D.C., which has become a very dangerous and badly managed place. We're going to make them safe, clean, and beautiful again. We will teach our children to love our country, to honor our history, and to always respect our great American flag.

(1:09:43 - 1:11:06)

And as long as the Speaker of the House of Representatives is here, I would like to put forward a bill, because I watched two months ago as some very bad people, radical left people, by the way, nothing happened to them, in Washington, D.C., burned our American flags. They were burning flags. And I would like to suggest that we put in a bill.

If you burn the American flag one year in jail, we will get critical race theory and

transgender insanity the hell out of our schools. And we will keep men out of women's sports. I will defend religious liberty, I will restore free speech, and I will defend the right to keep and bear arms.

Our second amendment is under siege. And after years of building up foreign nations, defending foreign borders, and protecting foreign lands, we are finally going to build up our country, defend our borders, and protect our citizens. It's called America First, and it's going to happen at levels never seen before.

(1:11:08 - 1:11:34)

And I'll tell our friends, our allies, who sometimes treat us very badly, that it's about time we take care of ourselves. And we will stop the illegal immigration that's taking place at levels never seen before. We will stop it cold, and once and for all, we will not be invaded, we will not be occupied, we will not be overrun, we will not be conquered.

(1:11:35 - 1:12:02)

We will be a free and proud nation once again. Everyone will prosper, every family will thrive, and every day will be filled with opportunity and hope, and very much so, it will be filled with the American Dream. We're bringing back the American Dream, and we're going to bring it back at the highest level that you've ever seen.

(1:12:03 - 1:12:36)

But for that to happen, we must defeat Kamala Harris and stop her radical left agenda with a landslide that is too big to rig. So you need to get out and vote. Get your husband off the couch.

The football game doesn't mean a damn thing. You got to get out and vote. Get up, Harry.

Come on, Harry. Get up, Harry. Let's go.

You're going to vote for the President, Harry. We're going to save our country. For the past nine years, we have been fighting against the most sinister and corrupt forces on Earth.

(1:12:37 - 1:13:19)

With your vote in this election, you can show them once and for all that this nation does not belong to them. This nation belongs to you. It belongs to you.

No city embodies the spirit, energy, and potential of the American people more than where we are gathered tonight. We want to win our country, but we also want to win New York and make it safe and strong and beautiful and affordable and vibrant again.

And we're going to do that.

And we'll work with the mayor and we'll work with the governor. We're going to do that. We're going to make it great.

(1:13:19 - 1:13:33)

You know, when I left for Washington eight years ago, we had a horrible mayor named de Blasio. He was a horrible, horrible. And things you could see, they weren't being properly done.

(1:13:33 - 1:13:57)

But still, it was a place that people wanted to be and all. But since then, our federal government, what they've done to this place, what they've done to the state, and I mean to force hundreds of thousands of really rough people into this beautiful — I call it a beautiful oasis. When I left, New York was the place you wanted to be, and now people just don't speak well of it.

(1:13:57 - 1:14:03)

But we're going to — we're going to bring it back, and we're going to bring it back strong. And I hope you go out and vote. You've got to vote for — you've got to vote.

(1:14:04 - 1:14:10)

It would be such an honor to win New York. Hasn't been done in decades. Hasn't been done in so long.

(1:14:11 - 1:14:18)

It hasn't been done in so long. They all say, Sir, you're wasting your money. Don't waste — I don't think so.

(1:14:19 - 1:14:37)

Your crime is through the roof. Everything is through the roof. I remember during the debate, they said, No, sir.

This stupid person named David Muir from ABC Fake News, he said, Sir, crime is not through the roof. Crime is down. I said, No, it's not.

(1:14:38 - 1:14:52)

I said, It's not down. It's up. It's down.

I was, like, debating three people. And him, I had that person next to him who I never

even heard of. But it turned out, the following day, they released the stats, and crime was up 45 percent.

(1:14:53 - 1:17:41)

And what a shame. What a shame. We really need a fair press in this country.

If we have a fair press, that's going to be 50 percent of the battle of bringing it back. But this is the city where I was born and raised, and this is the town that taught me that Americans can do anything when they want to. So, no matter our differences, when we work together, there is nothing that we cannot achieve.

From New York to Las Vegas, from Philadelphia to Phoenix, from Chicago to Charlotte, from Atlanta to Detroit, this nation was built by generations of American patriots who gave everything they had for our rights, our future, and for our freedom. Through freezing cold winters and hot, scorching summers, through storms and setbacks and conflicts and danger, our American ancestors pushed onward, marched forward, and overcame every single obstacle that stood in their way. Together, they crossed the oceans, settled a continent, tamed the wilderness, laid down the railroads, raised up those mighty skyscrapers, built the highways, won two world wars, defeated fascism and communism, and launched American astronauts to the moon.

It was hardworking patriots like you who built this country. And nine days from now, it's hardworking patriots like you who are going to save our country. After all we have been through together, we stand on the verge of the four greatest years in the history of the USA.

With your help from now until Election Day, we will restore America's promise, we will put America first, and we will take back the nation that we all love. We bleed the same blood, we share the same home, and we salute the same great American flag. We are one people, one family, and one glorious nation under God.

We will never give in, we will never give up, we will never, ever back down, and we will never, ever, ever, ever surrender. Together, we will fight, fight, fight, and we will win, win, win. We're going to win, win, win.

(1:17:44 - 1:18:21)

November 5th will be the most important day in the history of our country, and together we will make America powerful again. We will make America wealthy again. We will make America healthy again.

We will make America strong again. We will make America proud again. We will make America safe again.

(1:18:22 - 1:18:32)

And we will make America great again. Thank you, New York. God bless you.

God bless you all. Thank you.
